PAYOT TREATMENTS

In 1920, Dr. Nadia Payot revolutionized skin care with the creation of a beauty regimen combining high-tech biological products, specific massage gestures, facial exercises and exclusive treatments at her Institute on rue de Castiglione in Paris. At this prestigious location, Dr. Payot became known as a "beauty philosopher" utilizing her skills as a physician and her sensitivity as a woman to further the beauty and well-being of women. Her legendary contributions are anchored in the history of Parisian skin care and the legacy of the Payot brand.

Today Payot and its team of professional scientists, doctors and skin care specialists embody the innovative spirit of Dr. Payot and remain loyal to her principles. Herbs, plants and minerals, genuine sources of life, are the pillars of the Payot research and the origin of the ingredients used in the Payot skin and body care products and spa treatments.
