Safe & Hygienic  
Long lasting results

*Eyebrow & Facial Hair  
Experts*

Now there is a natural solution for your facial hair that does not involve wax, laser, IPL, electrolysis. It is fast, accurate, gentle and gives longer lasting results.

Embrace the world renowned 100% natural and superior hair removal method called threading. It is an ancient Indian technique that uses only a cotton thread which is skillfully manipulated to gently lift the hair off the follicle, leaving behind perfectly balanced, natural looking eyebrows and a very smooth skin.

Threading can perfectly shape your eyebrows and also remove any unwanted facial hair (upper lip, chin, sideburns and neck).

Gift vouchers also available.

## F.A.Q. Threading

### Is it painful?

Threading is definitely a lot less painful than waxing or tweezing and extremely accurate for perfect shaping.

Threading does not peel or traumatize your skin, so it will leave you with a very smooth skin, with minimum to no redness or irritation.

### How long will it last?

Threading gives longer lasting results than waxing or tweezing simply because all the hair, including the finest hair are removed from the follicle.

### How long will it take to do my eyebrows?

An eyebrow threading session usually takes about 5 to 7 minutes.

### Do I have to make an appointment?

Walk ins are welcome but booking is the best option to avoid waiting.
